

# INTERPURGE –

Dissolving Weld Gap Spacers  
1/16" thickness each – 50 pcs/pkg

## Item # for Common Pipe Sizes – 50 pcs/pkg

60008005	½"	Pipe - Weld Gap Spacers
60008010	1"	Pipe - Weld Gap Spacers
60008015	1-½"	Pipe - Weld Gap Spacers
60008020	2"	Pipe - Weld Gap Spacers
60008025	2-½"	Pipe - Weld Gap Spacers
60008030	3"	Pipe - Weld Gap Spacers
60008040	4"	Pipe - Weld Gap Spacers
60008050	5"	Pipe - Weld Gap Spacers
60008060	6"	Pipe - Weld Gap Spacers

ALL Sizes available – please request a quote!

## 1-2-3 Instructions for use/application:

INTERPURGE Dissolving Weld Gap Spacers are made of fast dissolving (100%) watersoluble material, are nuclear grade approved and non-contaminating to Stainless Steel, Titanium and Alloyed pipe or tube materials.

### #1 – FIT UP

Simply drop in the paper Weld Gap Spacer, slide in the pipe and start welding.

Convenient, Quick and Economical, as there's No Scribing, No Holding & No Clamping required – while the 1/16" minimum gap is easily set.

### #2 – WELD TIME

After "Fit Up", you're ready to weld!

With reduction of "set-up" times by up to 90%, through not requiring a "third hand", thousands of dollars savings are realized and joint to joint time is reduced significantly. This results in a minimal cost per joint.

### #3– FLUSH TIME

Weld Gap Spacers are made of water-soluble (dissolving) material that can be easily removed through purging with water or steam.

NOTE: Weld Gap Spacers are used as spacers for tube header "set-in" type connections, too.
